

DIE ÄSTHETEN. Munich and Bad Griesbach

Look younger and more successful: DIE ÄSTHETEN – the specialist centre for beauty – will optimise your appearance with innovative medical treatments for which no scalpel is needed. Previously there was no alternative to the classic cosmetic operations, but today non-invasive high-end procedures are available which permit beauty without scars and down time, so that you can take pleasure in your new appearance as quickly as possible.

In addition to all modern non-operative forms of treatment, DIE ÄSTHETEN are also the specialists for classic cosmetic operations carried out according to the latest medical operating standards, including breast enlargement, eyelid lifting, facelifts and liposuction. A personal consultation with Dr. Rösken – an experienced specialist for plastic and aesthetic surgery – will clarify which form of treatment is most suitable in your case.

Real beauty comes
from the inside.
We do everything else

DIE ÄSTHETEN optimise your appearance with medical professionalism and extensive experience at two locations: in the heart of Munich and in idyllic Bad Griesbach, some 110 km from Munich.

The consultation and treatment rooms in Munich are centrally located and offer plastic and aesthetic treatments at the highest level and in ultra-modern surroundings.

Our branch in Bad Griesbach is located in a five-star hotel with an adjacent Asklepios private clinic. It combines the comfort and luxury of a first-class hotel with optimal medical treatment and care.

OUR RANGE OF SERVICES INCLUDES

Non-operative aesthetic treatments:

- * Skin tightening - face and body
- * Long-term wrinkle reduction
- * Increased volume in the face and lip shaping
- * Long-term fat removal with CoolSculpting®

Plastic surgical procedures:

- * Modern, modular liposuction
- * Breast enlargement using high-quality implants
- * Natural lifting (including thread lifting)
- * Gentle eyelid lift
