WHAT IS THE BENEFIT OF FRACTIONATED ENERGY?
Fractionated RF energy is a scientifically proven method to reduce wrinkles and rebuild collagen and fat. It is minimally invasive, using a matrix of micro pins to renew deeper layers of the skin with almost no patient downtime.

CAN ANYONE USE MORPHEUS8?
The benefit of Morpheus8’s color blind technology is that it can be used on all skin types. The unique properties allow even darker tones to be treated.

WHAT IS THE BENEFIT OF RF ENERGY?
RF energy heats the deep layers of the skin in a controlled way to revitalize the collagen. The treatment will improve skin complexion and texture for a more radiant and youthful appearance.

CAN THIS BE USED IN COMBINATION WITH OTHER TREATMENTS?
Yes, Morpheus8 can be used in the same treatment session, or a few days after other treatments.

WHEN CAN I PUT MAKE-UP ON AFTER TREATMENT?
Since patient downtime is minimal, makeup can be applied 1 to 2 days after the treatment. Patients should expect to see micro lesions a few days after treatment and slight redness for up to 1 week depending on treatment parameters.

WHAT KIND OF POST PROCEDURE CARE IS REQUIRED?
Patients should moisturize the treatment area and avoid direct sun exposure. It is also recommended that patients use a good, broad spectrum sunscreen every day. In addition to reducing their future risk of skin cancer, sunscreens also reduce wrinkles and slow the aging process.
